Native pagination field notes

A repeatable witness for text, lists, tables and page breaks.

3. Keep selectable Unicode text.
4. Preserve the logical reading order.
5. Report unsupported layout explicitly.

Section 01. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Section 02. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Section 03. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Section 04. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Section 05. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Section 06. A document should keep its reading order across pages. This paragraph contains ordinary prose, accented words such as café and naïve, and enough text to exercise line wrapping. The native paginator measures shaped glyph advances before deciding where each line ends.

Inventory with repeated headers

ID	Description	Qty
R01	Archival notebook, edition 01. A two-line description demonstrates consistent cell widths.	1
R02	Archival notebook, edition 02. A two-line description demonstrates consistent cell widths.	2
R03	Archival notebook, edition 03. A two-line description demonstrates consistent cell widths.	3
R04	Archival notebook, edition 04. A two-line description demonstrates consistent cell widths.	4
R05	Archival notebook, edition 05. A two-line description demonstrates consistent cell widths.	5

ID	Description	Qty
R06	Archival notebook, edition 06. A two-line description demonstrates consistent cell widths.	6
R07	Archival notebook, edition 07. A two-line description demonstrates consistent cell widths.	7
R08	Archival notebook, edition 08. A two-line description demonstrates consistent cell widths.	8
R09	Archival notebook, edition 09. A two-line description demonstrates consistent cell widths.	9
R10	Archival notebook, edition 10. A two-line description demonstrates consistent cell widths.	10
R11	Archival notebook, edition 11. A two-line description demonstrates consistent cell widths.	11
R12	Archival notebook, edition 12. A two-line description demonstrates consistent cell widths.	12
R13	Archival notebook, edition 13. A two-line description demonstrates consistent cell widths.	13
R14	Archival notebook, edition 14. A two-line description demonstrates consistent cell widths.	14
R15	Archival notebook, edition 15. A two-line description demonstrates consistent cell widths.	15
R16	Archival notebook, edition 16. A two-line description demonstrates consistent cell widths.	16
R17	Archival notebook, edition 17. A two-line description demonstrates consistent cell widths.	17
R18	Archival notebook, edition 18. A two-line description demonstrates consistent cell widths.	18
R19	Archival notebook, edition 19. A two-line description demonstrates consistent cell widths.	19
R20	Archival notebook, edition 20. A two-line description demonstrates consistent cell widths.	20
R21	Archival notebook, edition 21. A two-line description demonstrates consistent cell widths.	21

ID	Description	Qty
R22	Archival notebook, edition 22. A two-line description demonstrates consistent cell widths.	22
R23	Archival notebook, edition 23. A two-line description demonstrates consistent cell widths.	23
R24	Archival notebook, edition 24. A two-line description demonstrates consistent cell widths.	24
R25	Archival notebook, edition 25. A two-line description demonstrates consistent cell widths.	25
R26	Archival notebook, edition 26. A two-line description demonstrates consistent cell widths.	26
R27	Archival notebook, edition 27. A two-line description demonstrates consistent cell widths.	27
R28	Archival notebook, edition 28. A two-line description demonstrates consistent cell widths.	28
R29	Archival notebook, edition 29. A two-line description demonstrates consistent cell widths.	29
R30	Archival notebook, edition 30. A two-line description demonstrates consistent cell widths.	30

Closing note

This heading begins on a new page because the source requests a forced page break. The table above contains every row from R01 through R30, once in logical order.

End of document — all thirty inventory records are present.
