

PDF 2.0: geospatial objects

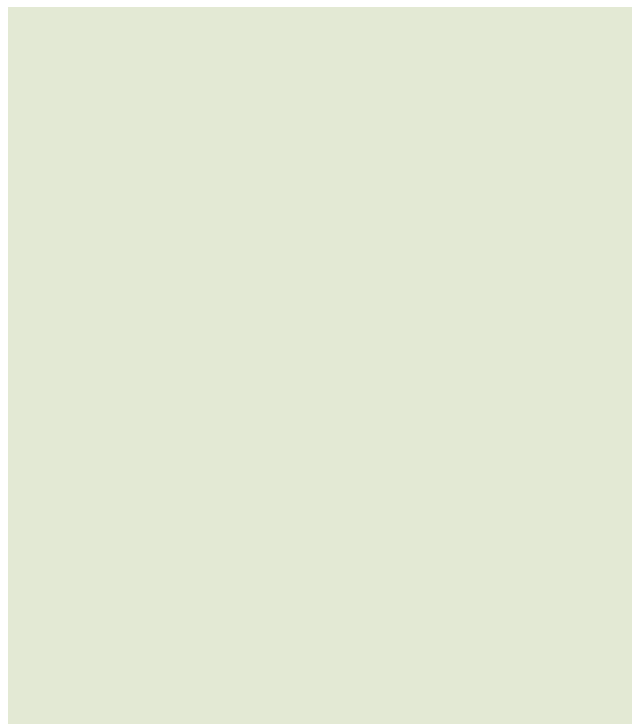

Explicit coordinate systems, point pairs and measurement viewports.

Geographic / EPSG 4326

Latitude, longitude

Projected / EPSG 3857

Easting, northing

GEO metadata is independent of the page illustration.

The left form and right raster carry their own GEO measures.

A LAT / LON / ALT cloud records the position 48.86, 2.35, 35.

PCSM records an explicit affine transformation for projected coordinates.

These independent sample regions are illustrative, not a surveyed map.

ISO 32000-2:2020, clauses 12.9 and 12.10; selected EC3 corrections.
